

Tool-less blanking panels

Product information / Rack airflow management

INSTALL. REMOVE. RECONFIGURE.

Press-fit panels close unused equipment rack openings. Integrated handles support removal when the rack changes.

Black polymer construction. Tool-less fitting and removal.

REFERENCE FAMILIES

19-inch nominal rack / 1U / MRBP-19-1U

23-inch nominal rack / 1U / MRBP-23-1U

Reference families are provisional. Confirm actual mounting dimensions and orderable SKU.

INSTALLATION APPROACH

Confirm compatibility with the specified rack. Align the panel and press until seated. Use the integrated handles for removal. Obtain the final installation instructions for the selected model.

BEFORE SPECIFYING

Confirm rack make/model, mounting-hole and rail geometry, panel dimensions and tolerances, material grade, applicable flame-rating documentation, packaging and project quantity. No airflow-performance improvement, certification or universal rack fit is claimed by this review draft.
